

If You Currently Use Calcium Hypochlorite Tablets to Chlorinate Your Pool.....and are sick of this And Want A Need a Solution For...

- * The time lost constantly cleaning the messy feeder .
- * The large amount of small parts that always plug & are replaced .
- * The high electrical cost of running the feeder booster pump .

Has The Clean Solution...

The NEW Versa Chlor system. Changing the Game!

The **Versa Chlor Easy Feed Chlorinator** combines with the proprietary calcium hypochlorite cubes to deliver predictable rates of chlorine to a variety of hotel/ motel , apartment and condominium pool water applications indoor or out .

The **Versa Chlor Easy Feed Chlorinator** has few moving parts and no small openings that can clog; freeing operators from frequent time-consuming maintenance. In most cases once a year cleaning is all that is required. Most all applications **will not** require a booster pump, saving additional maintenance and money.

Versa Chlor calcium hypochlorite cubes are specially engineered and independently tested by the labs at NSF international to work in **VersaChlor** Easy feed systems in accordance with NSF/ANSI standard 50 . Undergoing a multiple step manufacturing and quality control process to ensure they will not soften and clog the system. **VersaChlor** cubes containing scale inhibitor for clean chlorinator operation

Versa Chlor system is offered by Pool Doctors as a Purchase, Lease, Lease to own or with our exclusive quality water management program

Versa Chlor 1.25" Tablets
